We received an RFAI on 1/6/15 stating contributions from 2 individuals exceeded the maximum limit. These individuals had made contributions online and our reporting software created duplicate accounts for them. Because their cumulative contributions were being tallied in separate records, our committee did not realize their cumulative totals had exceeded limits. When we received notice of this error in the 1/6/15 RFAI, we refunded the overlimit contribution amount to the individuals and a record of these refunds will appear in our 4/15/15 quarterly report.
